

Scam Alert!!

We have had several calls to the office regarding one of the latest scams. You may receive a fax or e-mail requesting you to pick-up and store one or more vehicles at a local airport which are being imported from the U. S. or other countries. The scammer will not be available to talk directly to you for a multitude of reasons and will ask for your credit card or bank information to pay for import duties etc. They may also ask you to pay a broker who will call you for the credit card information etc.

Do not pay any attention to this and do not under any circumstances provide any credit card or bank information to the people involved in this.

Report all scammers to the police and be careful
